

National Plant Monitoring Scheme

The Big NPMS Quiz!

This week we are releasing a fun quiz and welcoming all participants!

A fun opportunity for you to check in on and test your ID, while also collecting useful volunteer experience data for the scheme. It doesn't matter if you are a newcomer to the scheme, with less experience, or a highly experienced botanical recorder.

Take your time and of course use our resources and any ID materials, just as we would recommend you use in the field.

This is not a test, but rather hopefully a useful and fun learning experience!

You can take the quiz by following the link below:

Once you have completed and submitted your survey you will be taken to a page to view your results and see the correct answers and some helpful pointers.

This quiz will be open for 1 month (until 15th September)
