

## National Plant Monitoring Scheme

Summer 2026

Dear \_\_\_\_\_,

The National Plant Monitoring Scheme (NPMS) team and our volunteer \_\_\_\_\_ would like to say thank you for allowing access to your land this season. The plant data collected will join data from hundreds of other squares across the UK to provide robust evidence of which widespread plants are increasing or declining, as well as indicating the changing state of our most valued habitats.

All of the data is available via the NBN Atlas (<https://nbnatlas.org/>) should you wish to access it. We are very grateful for your co-operation with this and for facilitating the data collection for this important monitoring programme.

If you have any queries or concerns regarding the survey then please do get in touch. You can also find out more about the scheme, learn how the or sign up for news and updates via our website: [www.npms.org.uk](http://www.npms.org.uk)

Yours sincerely,  
Rachel Murphy
